MEMORANDUM FOR: Director, Office Information and Technology
FROM: Executive Director
SUBJECT: Line Relocations

25X1
25X1
Recently my Planning Staff purchased several 3270 PC/AT's as part of an expanding executive information/decision support system. These workstations needed access to VM, and the task involved moving three terminal lines and connecting the PC's. Four OIT personnel --  --  -- achieved this quickly, efficiently, and with little disruption to the offices involved. Please extend my thanks for their timely response and excellent service.
